What is YOUR SHIBA INU?

Your Shiba Inu is a meme coin for those who missed out on the rise of Shiba Inu. Our goal is to make a nostalgia token based on the Shiba Inu coin, so that people can relive the success story that the original coin reached.

This coin starts with an incredibly low market capitalization (300\$) giving the opportunity for powerful boost in value, so that the investors can easily multiply their estate.

Why do we build on Shiba Inu?

There are a lot of meme coins nowadays which makes it difficult to find the ones that are authentic and aren't based on fraud. However, there were just a few meme coins back in 2020, and we want to travel back in time to the days where it wasn't hard to find reliable tokens. We created the Your Shiba Inu based on these values with the goal to travel back in time together to build a nostalgic community.

Tokenomics:

We tried to make the taxes way lower than in the case of other meme coins so there is 6% tax on purchases and 6% tax on sales.

Buy TAX (6%):

- 4% reward
- 2% liquidity

Buy TAX

Why did we choose Binance Smart Chain?

The Shiba Inu coin ran on the Ethereum network at the beginning.

1. We choose Binance Smart Chain anyway, because the gas fee increased on Ethereum, and we don't want the costumers to pay even hundreds of dollars. Binance Smart Chain has friendly gas fees, which makes the exchange and selling of the coin way cheaper.
2. The Ethereum network in based on proof of work. That means, that it has an enormous energy demand to run properly. Binance Smart Chain is based on proof of stake, which reduces the harmful effects on the environment.

Innovations that come with YOUR SHIBA INU:

1.YOUR SHIBA INU NFT COLLECTION

The main goal of Your Shiba Inu is, as mentioned, nostalgia. But we don't want to stop there.

NFT marketplace: We will create the Your Shiba Inu pack with 10000 pieces to create a stronger community. The holders are going to be able to join the Your SHIBA INU Multiplayer game with the Your Shiba Inu NFTs. When the game starts, the NFTs get different parameters and abilities, which can be used to build a special strategy during the Your SHIBA INU Multiplayer NFT game.

2.YOUR SHIBA INU MULTIPLAYER NFT GAME

The Your SHIBA INU Multiplayer NFT game is the official play to earn game of Your Shiba Inu. The goal of the game is to build a wonderful community amongst Your Shiba Inu holders. The Your Shiba Inu team is seeking for a game, that is in no way affecting the exchange rate of the token. That is why the mechanic of the game differs from other p2e (play to earn) games. The players play in multiplayer mode on one track (4 player mode), and they can place different bets at the beginning of the game. There will be a min. and max. amount (~0.1\$ - 1000\$) which can be paid with YSHIB token. The person who reaches the finish line first or stays alive the longest will be crowned winner and gets to keep the total amount of tokens put in the game.
